Dear Dave:

Congratulations on your recent receipt of a Master of Science Degree in Photogrammetry from the University of Illinois. Your fine performance during the 1969-70 school year is one in which the Center can take great pride.

I'm fully aware of the difficulty in returning to academia after several years absence from the classroom. Your achievement is a good example to your fellow workers and will indeed be difficult for others that follow to duplicate.

Sincerely,

Arthur C. Lundahl
